

## Creating offers yourself

1. If you already have an account with us, please login with your user credentials. An offer may also be created as an unregistered user.
2. Calculate your desired circuit board in the "PCB shop".
3. After entering the relevant PCB specification into the calculator, click on the "Create Quotation as PDF" button:

4. This will create a quote in PDF format, which you can use for your internal reference.
5. To order the PCBs later, you can restore the previously entered information using the WEdirekt quote number. Simply enter the quote number into the "Load PCB offer" box:

Through this, the information previously given will be entered into the price calculator and you can continue the order process as per usual.
